PROCEEDINGS IN CONGRESS.

The Inter-State Commerce Bill Still Bone of Contention in the Senate.

Randall's Resolution to Facilitate Business - A Flank Movem nt in Favor of a Bankrupt Law.

FORTY-EIGHTH CONGRESS.

The Senate.

WASHINGTON, D. C., Feb. 2.-The Chair laid before the Senate the credentials of Spooner, of Wisconsin, and Vest, of Missouri. After some discussion of the Union Pacific bill, the Pre-emption and Timber Cul-

Senator Harrison made a long speech in favor of the Senate Commission bill.

Mr. Beck's amendment to strike out the provision in the Reagan bill relating to equal facilities and accommodations, was deleated by 33 to 22 in the Senate.

Mesers. Beck, Plumb, Van Wyck, McMillan and others joined in the discussion; finally the Senate went into executive session, and soon after adjourned.

The House.

Under the call of States several bills, etc., were introduced and referred.

Mr. Belmont offered a resolution requesting the Secretary of State to inform the House whether any representations had been either formally or informally made to this Government by the British Government growing out of the use of dynamite in London; if such representations had been made in writing, then to transmit copies of the communications that passed between the two Governments on the subject of these representations, or if the communication had been verbal, then a statement of their tenor and purport. Also, a resolution requesting the President to cause originals or copies of all communications which had been received respecting the Congo Conference, and especially copies of the commissions or powers sent by the Government to each of the three American plenipotentisries or egents to be immediately transmitted to the House.

Mr. Randall called up the resolution providing that, during the remainder of the session, thirty minutes every morning shall be devoted to the consideration of measures called up by individual members, if there are not five objections made thereto; provided, while this order is in force, the Speaker shall not enteriain a request for unanimous

consent at any other time. Mr. Townshend moved to recommit the resolution with instructions to the Committee on Rules to report back the amendment and to consider any day after the reading of the journal to move to go into a committee of the whole for the purpose of considering the House bills with Senate amendments, which, under the rules, must be considered in committee. This is intended to facilitate

the passage of the Mexican Pension [bill. Mr. Cox, of New York, offered as a sub stitute to this motion a motion to recommit, with instructions to the committee to report back an amendment providing that during the thirty minutes members shall be recognized as their names are drawn out of a box This was agreed to yeas 126, nays 123, but the motion of Townshend as thus

amended was lost by 61 to 143. The previous question was then ordered on Mr. Randall's resolution, yeas 192,

Mr. Keifer moved to amend by extending to one hour the time to be devoted to the consideration of the measures called up by individual members. Agreed to.

At this point, and before final action was taken on the resolution, Mr. Collins moved the House take recess until 11 o'clock tomorrow. This was done for the purpose of continuing the legislative day of Monday, in order that an opportunity be had to move the passage of the bankruptcy bill under a suspension of the rules.

Mr. Thompson interposed a motion to adjourn. Lost-yeas, 103; nays, 157. Mr. Moulton then made some filibustering motions, on which the roll was called,

No Place to be Made for Greely.

Washington, Feb. 2 .- The Military Committee has withdrawn its recommendation to provide for an assistant signal service officer, with the rank and pay of Colonel. the place thus created being intended for Lieutenant Greely. The action of the committee is said to be due to certain facts which have recently come out in regard to the Greely Arctic Expedition. The contents of some of the diaries brought back from the expedition are said to give strong ground for the belief that three, if not four, of the party were shot for food; and that Greely's obstinacy was responsible for the disasters which subsequently befell.

For their peculiar action on the liver and kidneys Victoria Pills have gained a reputation that can not be disputed. Physicians

EXCITEMENT IN ROCHESTER.

Widespread Commotion Caused by That Remarkable statement of a Physician

The story published in these columns recently, from the Rochester (N. Y.) Democrat, created a deal of comment here as it has elsewhere. Apparently it caused even more commotion in Rochester, as the following from the same paper shows:

Dr. J. B Heniou, who is well known not only in Rochester but in nearly every part of America, sent an extended article to this paper a few days ago, which was duly published, detailing his remarkable experience and rescue from what seemed to be certain death. It would be impossible to enumerate the personal inquiries which have been made at our office as to the validity of the article, but they have been so numerous that ture bills, the Sanate took up the Inter-state further investigation of the subject was deemed an editorial necessity.

With this end in view a representative of this paper called on Dr. Henion at his resi dence on Andrews street, when the following interview occurred: "That article of yours, Doctor, has created quite a whirlwind. Are the statements about the terrible condition you were in and the way you were rescued such as you can sustain?'

Every one of them and many additional ones. I was brought so low by neglecting the first and most simple symptoms. I did not think I was sick. It is true I had trequent headaches; felt tired most of the time; could est nothing one day and was ravenous the next; felt du'll pains and my stomach was cut of o der, but I did not think it meant anything serious. The medical profersion have been treating symptoms instead of diseases for years, and it is high time it ceased. The symptoms I have just mentioned or any unusual action or irritation of the water channels indicate the approach of kindy disease more than cough announces the coming of consumption. We do not treat the cough, but try to help the lungs. We should not waste our time trying to relieve the headache, pains about the body or other symptoms, but go directly to the kidneys, the source of most of these ailments." "This, then, is what you meant when you said that more than one-half the deaths which occur arise from Bright's disease, is it

"Precisely. Thousands of diseases are torturing people to-day which in reality are Dright's disease in some of its many forms. It is a hydraheaded monster, and the slightest symptoms should strike terror to every one who has them. I can look back and recall hundreds of deaths which physicoans declared at the time were caused by paralysis, apoplexy, heart d sease, puenmonta malarial fever and other common complaints which I see now were caused by

"And did all these cases have simple symp-

toms at first?" "Every one of them, and might have been cured as I was by the timely use of the same remedy. I am getting my eyes thoroughly opened in this matter and think I am help ing others to see the facts and their possible danger also."

Mr. Warner was visited at his es'ablishment on North St. Paul streat. At first he was inclined to be reticent, but learning that the information desired was about Bright's disease, his manner changed instantly and he spoke very earnestly:

"It is true that Bright's disease had increased wonderfully, and we find, by rel'a-ble statistics, that from '70 to '80, its growth was over 250 per cent. Look at the preminent men it has carried off: Everett, Sumner, Chase, Wilson, Carpenter, Bishop, Haven Folger, Colfax and others. Nearly every week the papers record the death of some pr minent man from this scourge. Racently, however, the increase has been checked and I attribute this to the general use of my remedy."

"Do you think many people are afflicted with it to-day who do not realize it, Mr.

"A prominent professor in a New Orleans medical college was lecturing before his class on the subject of Bright's disease. He had various fluids under microscopic analysis and was showing the students what the indications of this terrible malady were. 'And now, gentlemen,' he said, 'as we have seen the unhealthy indications I will show you how it appears in a state of perfect health,' and he submitted his own fluid to the usual test. As he watched the results his countenance suddenly changed, his color and command both left him, and in a trembling voice he said: 'Gentlemen, I have made a painful discovery; I have Bright's disease of the kidneys.' And in less than a year he was dead. The slightest indications of any kidney difficulty should be enough to strike terror to any one.

"You know of Dr. Henion's case?" "Yes, I have both read and heard of it."

"It is very wonderful, is it not?" "No more so than a great many others that have come to my notice as having been cured by the same means." "You believe, then, that Bright's disease

can be cured?" "I know it can. I know it from my own and the experience of thousands of prominent persons who were given up to die by

both their physicians and friends. "You speak of your own experience: what

"A fearful one. I had felt languid and unfitted for business for years. But I did not know what ailed me. When, however, I found it was kidney difficulty I thought there was little hope and so did the doctors. I have since learned that one of the physicians of this city pointed me out to a gentleman on the street one day, saying: 'Inere goes a men who will be dead within a year.' i believe his words would have proved true if I had not providentially used the remedy

now known as Warner's Safe Cure." Dr. S. A. Lattimore, although busily engaged upon some matters connected with the State Board of Health, of which he is one of the ara'ysts, courteously answered the questions that were propounded to him. "Did you make a chemical analysis of the case of Mr. H. H. Warner some three years

ago, Doctor?' "Yes, sir" "What did the analysis show you?" "The presence of albumen and tube casts

in great abundance." "And what did the symptoms indicate?" "A serious disease of the kidneys" "Did you think Mr. Warner could re-

"No. sir. I did not think it possible"

"Do you know anything about the remedy which cured him?" "Yes. I have chemically analyzed it and

find it pure and harmless. We publish the foregoing statement in view of the commotion which the publicity of Dr. Henion's article has caused and to meet the protestations which have been made The Doctor was cured four years sgoand is well and attending to his prefessional duties to day. The standing of Dr. Henion, Mr. Warner and Dr. Lattimore in the community is beyond question and the statements they make can not for a moment be doubted. Dr. Henion's experience shows that Bright's disease of the kidneys is one of the most deceptive and dangerous of all disof undoubted ability are recommending eases, that it is exceedingly common, and that it can be cured.

UNION PACIFIC.

The Court of Claims Decides the Long Pending Cases.

WASHINGTON, Feb. 2.- The Court of Claims to-day decided the long pending cases of the Union Pacific railway company vs. the United States. Chief Justice Richardson delivered the opinion of the court. The following is a synopsis of the points decided : First. the amount allowed by the treasury department for carrying mails, being the same rates allowed by law to all other railroad companies, is a fair and resorable compensation, and not in excess of that paid by private parties for the same kind of service. The United States is bound to pay for the transportation of its passengers, troops, etc., from Council Bluffs to Omaha over the bridge and between Conneil Bluffs and Ogden the same rates paid by private parties. those rates being fair and reasonable, and the United States is not entitled to the reduction accorded passengers who purchase through tickets between New York and San Francisco and other distant places, unless its passengers purchase tickets in like man-

The company is required to pay into the Treasury of the United States each year 5 per cent, of the net earnings under the act of 1862, and under the Thurman act, since its passage, in addition so much of \$850,000, as with said 5 per cent. and the whole compensation for Government transportation, is equal to 25 por cent. of the net earnings. In determining what the net earnings are, the expenses bona fide paid out of the gross earnings, not charged to construction nor capital, are to be deducted from gross earnings, although they are partly in the nature

of permanent improvements. In stating the account to December 31, 1882, the court finds, approximately, that the United States owes the company \$2 975,-700, and the company owes the United States \$5,734 392; deducting one from the other, the United States is entitled to a judgment on its counter claims against the company of \$2,758,692. The accounting officers of both parties are to make accurate computations in accordance with the principles and formula laid down in the findings of fact, and this opinion and judgment is postponed until their calculations are made and handed to the court for examination and final action.

CLEARANCES.

The State of Trace for the rast Week, with the Percentages of Increase and Decrease.

Boston, Feb. 2 .-- the contowing table, compiled from special dispatches to the Post from the managers of the principal Clearinghouses of the United States, gives the gross exchanges for the week ending January 31, with percentage increase and decrease as compared with the corresponding week last

Losses by Fire.

MARQUETTE, Mich., Feb. 2.- The First National Bank building caught fire shortly after midnight. The building was the finest in the city. Owing to the extreme cold weather, the thermometer registering 16° below zero, the firemen worked at a great disadvantage, and the building is a total loss, with all its contents. The losses are as follows: Building, \$150,000; I. Newberger, \$40,000; S. Kaufermann & Sons. \$30,000; Rothschild & Bending, \$20,000; First National Bank, \$10 000. The Champion Iron Company, J. E. Daliba, Dr. H. W. Banks, M. H. Maynard, W. P. Healey, the United States Signal Service Office and W. H. Manning lose all their books and office fixtures. Three valuable law libraries are destroyed. The total loss will reach over \$250,000.

Female Lawyers in the Supreme Court. Washington, Feb. 2.-Mrs. Laura De Force Gordon, of California, was admitted to the bar of the United States Supreme Court upon motion of A. G. Riddle this afternoon. Mrs. Gordon is the second woman allowed to practice before the court, the first being Belva Lockwood, who has argued only one case here since her admission to the bar, in March, 1879.

From among the many testimonials raceived we select the following, written by J. H. Carter, a resident of Phelps County, Missouri, who says: "I have used Sherman's Prickly Ash Bitters to the best advantage, and can bonestly testify that it has done myself and family an immense good, and from my experience recommend it highly to all sufferers."

Paid in Full, NEW YORK, Feb. 2.-Optyke & Co. are paying 20 per cent. to creditors. This is the last payment due, the firm having paid 80 per cent. last month.

Used berbs in doctoring the family, and her simple remedies DID CURE in most cases. Without the use of herbs, and yet the tendency of the times is to neglect the best of all remedies for those powerful medicines that seriously in-

fully compounded from the formula of a regular Physician, who used this prescription largely in his private practice with great success. It is not a drink, but a medicine used by many physicians.

So It is invaluable for DYSPEPSIA, KIDNEY and LIVER COMPLAINTS, NERVOUS EXHAUSTION, WEAK-NESS, INDIGESTION, &c.; and while curing will not hurt the system.

Mr. C. J. Rhodes, a well-known iron man of Safe Harbor, Pa., writes: "My son was completely prostrated by fever and ague. Quinine and barks did him no good. I then sent for Mishler's Herb Bitters and in a short time the boy was quite well."

"E. A. Schellentrager, Druggist, 717 St. Clair Street, Cleveland, O., writes: "Your Bitters, I can say, and do say, are pre-scribed by some of the oldest and most prominent

ON THE ENGINE.

Running & Locomotive While Deathin Sick-Something the Passengers Did No. Know-A Physician Saves an Engineer TAUNTON, Mass.

Dr. David Kennedy, Rondout, N. Y: DEAR Sig-I am an engineer on the Old Colony Referred, and run the Fair River bon train be tween fall River and Lowel, residing in laundeath from dyspepsis. Often I had suc't minding sie- headaches trail could scarcely are I think this was due partly to irr gular babbs of earing. and partly to the jar of the engine. so native. my head would snap like neurals a and again the pain would settle in my eyes, which would feel as big as a man's fists. My breath was very offensive, and my food soured as soon as it en-tered myt stomach. In fact my stomach fe't athough it were a great raw and sore surface, and what agony it cave perhaps you can imagine.
In the summer and fall of 1876 when we had the heavy centennial travel, the constant jar brought on accuse attacks nearly every week, and I thought I should have to leave the roat. But I kept at work until the next spring, when I grew so much worse that I could virtually eat nothing. and concluded that my labor, and my life, too, were about over.
Remember, that I had tried every medicine I heard of, and had been treated by some of the best physicians in Taunton and Lowell At this critical time DR. DAVID KENNEDY'S FAVOR-ITE REMEDY was recommended to me. It was

you can easily forgive me for saying that I had not a particle of faith in it. I had taken it but a few days when I began to get better. The raw and sore feeling left my stomsch, and the snapping pains left my head, and soon I was all right, and have been ever since. It is the only thing that ever did me least the good, and it drove every ache, pain and discomfort completely out of my body. Now I keep KENNEDY'S FAVORITE REMEDY with me on my engine, and it goes wherever I go.
Why, I beli ve FAVORITE REMEDY will care

new to me, and with my experience of medicines.

anything. One night, a while ago, John Layton, an engineer who runs the main line boat train from Boston, came on my engine sick as death. He was worn out with work, had a high fever, and was so nervous he almost broke down crying. "Nonsense, John," I said. "cheer up. I've got something on my engine that will set you up in a jiffy." I took out my bottle of FAVORITE REM-EDY, lifted his head and gave him a good dose. He went to bed. Two days after I saw him looking as healthy as a butcher. "Dan," he said, "what was that stuff you gave me the other night?" "It was DR. DAVID KENNEDY'S FAVORITE REMEDY, Rondout, N. Y." said I. "Well, I don't care whose Remedy it is, it's the thing for a man on a railroad." So say we all, Yours, etc., DANIEL FITTS.

This preparation goes to the root of the disease by purifying the blood and rousing every organ into healthy action. It is useful at home, shops, in office-everywhere, Dr. David Kennedy, Physician and Surgeon, Rondout, N. Y.
